

AFUYE IYIOLA

Full Stack Software Engineer | Lagos, Nigeria

iyioladan11@gmail.com · +234 803 979 8331 · portfolio-iyi.vercel.app · github.com/Iyiola2dev · linkedin.com/in/iyiolaafuye

SUMMARY

Full-stack engineer who has shipped seven products to production, including iOS and Android apps live on the App Store and Google Play plus a real-time chat app currently in store review. Strongest in TypeScript across React/Next.js and NestJS, with real experience in payments (Stripe, PayPal, Paystack), real-time systems, and RAG-based AI features. Career-changer from accounting; self-taught and shipping since 2024.

SHIPPED PRODUCTS

- **Boomscore:** AI sports prediction platform · Next.js, NestJS, GraphQL, PostgreSQL · boomscore.ai
- **SimServiceHub:** two-sided artisan marketplace · web + iOS (App Store) + Android (Google Play) · React Native (Expo) · simservicehub.com
- **PingMe:** real-time chat app for one-to-one and group messaging with push notifications · React Native (Expo), Socket.io · in review on the App Store and Google Play
- **NIDC Foundation:** site for a Nigerian capacity-building non-profit developing talent across energy, manufacturing, and digital infrastructure · Next.js, TypeScript, Tailwind CSS · nidcfoundation.com
- **Altan Infinity:** custom-footwear e-commerce · React, Node/Express, MongoDB, Stripe · altaninfinity.de
- **Blueberry Zanzibar:** touring site and company CMS · blueberryzanzibar.com
- **KM & IKS Consultancy:** lead-generation marketing site for a professional consultancy · Next.js, Tailwind CSS · km-iks.com

EXPERIENCE

Full-Stack & Mobile Engineer (Simul Management Solutions)

2025 – Present

United Kingdom · Remote

- Built SimServiceHub from scratch: a two-sided marketplace spanning a React web app and a React Native (Expo) mobile app with separate customer and artisan flows across 20+ screens.
- Shipped both mobile apps end to end through Expo EAS Build and took them through Apple and Google review to public release.
- Integrated Stripe and PayPal checkout with webhook handling for in-app transactions.
- Implemented real-time WebSocket messaging with typing indicators, read receipts, and automatic reconnection with REST fallback, so chat survives the unreliable mobile networks most users are on.
- Built AI features that shortened core flows: an assisted job-description generator in the posting wizard, and SIMI, a RAG-based support chatbot with escalation to a human agent.
- Also delivered Altan Infinity (e-commerce, Stripe/PayPal), Blueberry Zanzibar with a company CMS, the NIDC Foundation site (Next.js/TypeScript), the KM & IKS consultancy site, and PingMe, a real-time chat app now in App Store and Google Play review.

React · React Native (Expo) · TypeScript · NativeWind · Node/Express · MongoDB · WebSockets · Socket.io · Stripe · PayPal · OpenAI/Claude API

Full-Stack Engineer (Boomscore)

June 2025 – January 2026

Lagos, Nigeria

- Owned the subscription and billing module end to end: three-tier plans, per-day usage limits, Paystack integration with webhook signature validation, PDF invoicing, and scheduled downgrades at cycle end.
- Designed the four-tier role-based auth system with JWT access/refresh tokens, multi-device session tracking, and per-device logout.
- Built the admin dashboard in Next.js, user management with filtering, bulk moderation actions, and per-user subscription and activity analytics.
- Wrote GraphQL resolvers and NestJS services for users, auth, payments, betslips, and predictions, including rate limiting and subscription-limit enforcement across the API.
- Added Socket.io live-match updates and an Apollo Client caching strategy that cut redundant GraphQL requests on the prediction feed.

TypeScript · Next.js · NestJS · GraphQL · PostgreSQL · Prisma · Socket.io · Apollo Client · JWT · Paystack

TECHNICAL SKILLS

Frontend	TypeScript, JavaScript, React, Next.js, React Native (Expo), Redux, Tailwind CSS, NativeWind
Backend	Node.js, NestJS, Express, Flask, REST, GraphQL, WebSockets, Socket.io
Data	PostgreSQL, MySQL, MongoDB, Redis, Prisma, Drizzle
AI	OpenAI API, Claude API, RAG pipelines
Payments	Stripe, PayPal, Paystack (checkout, webhooks, invoicing)
Infra & Tools	AWS S3, Cloudflare R2, Cloudinary, Docker, GitHub Actions, Vercel, Firebase, Twilio, Expo EAS Build, Git, Jest

EDUCATION

B.Sc. Accounting (University of Benin)	2019 – 2023
